Payment to be made with reservation of stand.					

### Rules & Regulations – Trade, Craft & Food Stand Holders

- 1. Show stand layout will be at the discretion of the Chairman and the Trade Stand Convenor.
- 2. There will be 2 trade stand entry tickets per day per 3m of frontage up to a maximum of 10 tickets per trade stand per day.
- 3. Further entry tickets can be purchased at concessionary rate of £10 each.
- 4. Trade delivery vehicle passes must be displayed to gain entry to the showground.
- 5. All delivery vehicles must exit the showground by 9am.
- 6. All persons in charge of stock or other exhibits and all persons admitted to the showground shall be subject to the rules of the Society and must obey the orders of the Directors, Secretary and other officials of the Society.
- 7. The Directors, attending members, gate stewards and all other officials have the power to enforce the regulations of the Society in their different departments and exhibitors shall be answerable for the conduct of their employees.
- 8. The Society shall disclaim liability for death or personal injury caused by the negligence of the Society, its servants, or agents or any person whilst entering or leaving the showground. The Society shall not be responsible for death, injury, disease or loss caused to any exhibitor or to his servant or agent, or to any other animal, insect, bird or thing of whatever nature exhibited by said exhibitor or any vehicle brought by the exhibitor to the showground or car parks from whatever cause death, injury, disease or loss arises.
- 9. All trade stands must be erected by evening of Thursday 1<sup>st</sup> August 2024. No vehicles will be allowed in to the showground on Saturday 3<sup>rd</sup> August 2024 until 6pm, when trade stands can be dismantled. Depending on weather conditions and at the discretion of the Chairman and Trade Stand Convenor, Trade Stand Exhibitors with heavier equipment on their stand may be asked to refrain from removing their equipment until assessment of ground conditions for the removal of heavy equipment is established. Security will be provided.
- 10. The Show Chairman, Secretary and Committee in conjuction with Perth and Kinross Council reserve the right to move the Show to the Lesser South Inch if wet weather prevails.
- 11. All liability incurred on the trade stand lies with the particular trade stand holder, and the same must make all insurance arrangements.
- 12. Trade Stand holders must make sure their stand is manned at all times. Show hours will be from 9.00am 6.00pm on both Friday & Saturday.
- 13. The Society will not be responsible in any way for any article, plant, machinery or object of any kind exhibited in the showground. Exhibitors are advised to insure against fire and any other relevant risks including theft, not only as regards their own property but also against any other third party claims.

- 14. No exhibitor shall sub-let any portion of the space allotted to him or move to any other site that has not been allocated to him.
- 15. Exhibitors are at liberty to make such arrangements regarding catering on their own stands as they wish, provided that no exhibitor sells or offers for sale any foodstuffs or beverages. The Catering & Bar rights have been granted.
- 16. Tickets will be issued by the Society to stand holders to gain entry on both Friday & Saturday. Tickets will be allocated between car passes and trade stand passes.
- 17. Each trade stand holder is responsible for clearing and cleaning up of the site occupied by him/her/them. Any cost incurred by the Society in cleaning up a particular site may be charged to the relevant trade Stand holder.
- 18. Each trade stand holder must make adequate provision for the fire safety equipment on their stand, complying with the direction of the Fire Officer.
- 19. All vehicles belonging to the trade stand holders must be parked in the official trade stand car park area or within the bounds of their Trade Stand.
- 20. P A Systems Exhibitors must not play music, use PA systems, or make other noise at a level which will cause annoyance to adjoining exhibitors. Microphones may only be used if you have prior permission from the Trade Stand Convenor.
- 21. In the event of cancellation, by either Perthshire Agricultural Society or the Trade Stand holder, then the following will apply: 6 weeks' notice 75% of total fee refunded, 4 weeks' notice 50% of total fee refunded, less than 4 weeks' notice no refund given. No refund will be given on any tickets purchased.

# ALL TENTS & MARQUEES MUST COMPLY WITH THE BRITISH STANDARD 5438 AND BRITISH STANDARD 7837

# Code of Practice for Health & Safety

- 1. Any plant, machinery or equipment used prior to or after the Show should only be operated by an adult who is fully trained in its safe use. Children under the age of 17 must not be allowed to ride on or operate machinery including "all terrain" vehicles.
- 2. Exhibitors, trade stand holders, caterers, retailers, etc. using Liquified Petroleum Gas (LPG) must comply with HSE Regulations in respect of storage and use of any containers which they may bring.
- 3. No generators for electricity allowed. All electricity required will be supplied by the Society at a cost.
- 4. All stalls should be properly erected, securely tied-in and, as far as possible, avoid protruding stays and jagged edges to trestles, etc.
- 5. Steps and stairs into side-shows and caravans should be firmly positioned and be of proper construction. Where applicable handrails should be provided.
- 6. Dangerous machinery should be positioned, guarded or otherwise protected so that it is not accessible to children or other persons.
- 7. It is essential that all persons engaging in the preparation and cooking of food are aware of the need for certain elementary precautions of safety in order to minimise the risk of accidents.
- 8. First aid facilities will be provided on the days of the Show and these will be clearly sign posted and identified.
- 9. Emergency services will have access to all parts of the showground at all times.
- 10. In the event of a major incident, an accident sheet will be available from the Secretary's Office and all relevant information must be recorded immediately.
- 11. A Safety Officer has been appointed to check on safety procedures at the Show and and it is expected he will have the full co-operation of all exhibitors and trade stand holders.

### Fire Risk Assessment

Name of Stall:

All stalls trading must carry out the risk assessment. Until you can answer "YES" to all the following questions it will be an <u>OFFENCE</u> to operate.

	Yes	No	N/A
Are adequate exits provided for the numbers of persons within?			
(Are your staff able to evacuate your stall easily if normal access is			
blocked?)			
Are there sufficient directional signs indicating the appropriate			
escape route and do they comply with current regulations?			
If the normal lighting failed would the occupants be able to make a			
safe exit? (Do you have back-up lighting such as torches?)			
Are all exits kept unobstructed?			
Is there an adequate number of fire extinguishers/fire blankets			
available in conspicuous positions?			
Has the fire fighting equipment been tested in the last 12 months?			
Have you given staff training in emergency procedures?			
Have all staff been made aware of exits and fire fighting equipment			
on your stall?			
Have you identified combustible materials that could promote fire			
spread beyond the point of ignition such as paper/cardboard, bottled			
LPG, etc?			
Are the structure, curtains and drapes flame retardent?			
If any staff sleep in the stall, is there a smoke detector and a clear			
exit route at night?			
Have you received the document "Code of Practice" which			
emphasises the conditions that you are required to comply with?			

Please complete and sign that these checks have been made.

The signed and completed form must be available for inspection by any of the following: The Fire & Rescue Services/Event Organiser/Concession Manager and Council Officer.

Signature.....

#### Guidance for the Completion of Risk Assessment Record

#### <u>Table A</u>

**Activity Assessed:** Describe the activity that is being assessed. This could be a specific task e.g. Floor cleaning; operation of a machine; maintenance activities; etc.

**Location:** Describe the location of the activity. **SOUTH INCH, EDINBURGH ROAD, PERTH, PH2 8BU. Review Date:** Enter the date that the assessment will be reviewed. **FROM 2<sup>nd</sup> – 3<sup>rd</sup> AUGUST 2024.** Table B

**Those Affected:** When carrying out a risk assessment any person who may be affected by the work that is being assessed must be identified. Should there be categories of persons not identified, then enter additional categories in the boxes provided.

## <u>Table C</u>

**Hazards:** Identify the hazards in the activity being assessed by putting a cross in the appropriate boxes. The list provided is not comprehensive. Should there be hazards that are not on the list then enter additional hazards in the boxes provided.

**Those Affected:** Enter the identification letters of those affected (from Table B) against the appropriate hazard. Note: The definition of a Hazard is:- something with the potential to cause harm. <u>Table D</u>

Hazards: List the hazards identified in Table C.

**Existing Control Measures:** Outine the existing measures which will reduce the risk arising from each of the hazards listed. Check that they meet legal requirements, industry standards and represent good practice. Typical control measures include: safe design, preventing access to the hazard eg. Guarding, written procedures and instruction, training, provision of PPE, etc.

**Risk:** Assess the risk arising out of the hazards identified using the criteria set out below. When carrying this out consideration must be given to what is reasonably foreseeable in relation to the identified hazards and recognition of the existing control measures that reduce the risk. Enter the appropriate letter – L for Low, M for Medium or H for High. If the overall risk category is low, then the assessment is complete and the information contained within the assessment should be disseminated to those affected. However if the overall risk category is medium or high then additional Control Measures are required (see below).

Note: The definition of a RISK is:- the likelihood of potential harm from a particular hazard being realised. The extent of the risk will depend on the potential severity of the harm and population that might be affected.

		LIKELIHOOD	
SEVERITY	Certain or near certain	Reasonably likely to	Very seldom or
	to occur	occur	never occurs
Fatality; major injury or	HIGH	HIGH	MEDIUM
illness causing long term			
disability			
Injury or illness causing	HIGH	MEDIUM	LOW
short term disability			

Other injury or illness	MEDIUM	LOW	LOW				
	RISK						

Additional Control Measures: Additional control measures that will reduce the risks further should be noted. For example elimination of the hazard should be considered first. If this is not possible, then try to reduce the risk e.g. Risks from electrical hazards might be reduced by using low voltage electrical appliances. Also consider: safer design, additional guards, additional procedures and instruction, increased supervision, personal protective equipment (PPE). The completion date for the introduction of each control measure should be recorded.

**Residual Risk:** The assessment process must be repeated taking into account the existing and additional control measures. Enter the appropriate letter – L for Low, M for Medium or H for High. If the residual risk category is low, then the assessment is complete and the information should be disseminated to those affected. If the overall risk is medium then additional measures should be introduced within the completion date period and the information contained within the assessment disseminated to those affected. If the residual risk remains High work **must not proceed** and the risks arising out of the hazard must be addressed and amended before continuing.
